DECLARATION AND POWER OF ATTORNEY

ATTORNEY DOCKET NO. 60001.0301US01

MS DOCKET NO. 305781.1

As a below named inventor, I hereby declare that:

My residence/post office address and citizenship are as stated below next to my name;

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled: **Data Source Write Back and Offline Data Editing and Storage In A Spreadsheet**

I hereby state that I have reviewed and understood the contents of the above-identified specification, including the claims, as amended by any amendment(s) referred to above. I acknowledge the duty to disclose all information which is material to patentability as defined in 37 CFR 1.56.

Foreign Application(s) and/or Claim of Foreign Priority

I hereby claim foreign priority benefits under Title 35, United States Code Section 119 of any foreign application(s) for patent or inventor(s) certificate listed below and have also identified below any foreign application for patent or inventor(s) certificate having a filing date before that of the application on which priority is claimed:

(This section is hidden text and should not be printed. Be sure that you do not have the hidden text box checked at File/Print/Options/Include with Document.)

As stated on the PTO Web site:

"The domestic priority box was removed from the declaration forms because it is not required by the statutes or by the related rules to state a domestic priority claim in the declaration. The presence of this box created confusion, and may have caused unnecessary objections to declarations when this box was not filled out and applicant was indeed claiming domestic priority to another application. To claim domestic priority under 35 U.S.C. 119(e)1 and 1202, applicant must comply with 37 CFR 1.78 which requires, in part, that the priority claim information be in either the first line of the specification or in an application data sheet."
